Technological Innovation Management Certificate

15 ECTS

HOUSE OF
TRAINING

The Future is Made of Skills

About the Programme

In today's rapidly evolving business landscape, the fusion of innovation and digital transformation is essential for organisational success. This comprehensive programme is designed to equip professionals with the knowledge and skills necessary to lead and manage in this dynamic environment. By integrating core modules with a selection of specialised electives, participants will gain a complete understanding of how to leverage technological advancements and innovative strategies to drive business growth and sustainability.

Benefits

For You

- Build the skills and confidence to drive innovation and manage technological change.
- Learn to align new technologies with business strategy for informed, impactful decisions.
- Strengthen your career opportunities and position yourself for leadership roles in innovation and transformation.

For Your Organisation

- Prepare talent to anticipate and leverage emerging technologies for growth and resilience.
- Accelerate innovation and process improvement by equipping employees with up-to-date expertise.
- Foster a culture of adaptability and data-driven decision-making across the organisation.

Who Should Attend

- Managers, experienced professionals or specialists eager to shape innovation and digital strategy in their organisation.
- Professionals working in technology, operations, strategy, or business transformation roles

About Us

HEC Liège, the Management School of the University of Liège, is a world-class business school recognised for both academic rigour and real-world impact. It holds the prestigious Double Crown accreditation (EQUIS & AACSB) – a distinction achieved by less than 1% of business schools worldwide, placing it among the global elite.

Its DNA is built on four pillars:

a solid academic culture

a pronounced entrepreneurial spirit

international openness

a close-knit community

With its slogan «We nurture the future,» HEC Liège aims to shape the society of tomorrow through education, research, and civic engagement. Its vision is to become a driving force for sustainable solutions on both local and global scales. Its values – citizenship, inclusiveness, rigor, creativity, ethics, and responsibility – guide its mission to train agile and responsible leaders able to create sustainable value for their organisations and for society.

3 500+

students from diverse backgrounds.

19 000+

alumni worldwide, including many in Luxembourg's finance and corporate sectors.

150+
